MOSELEY'S TUBULAR WROUGHT IRON

ARCH BRIDGES AND ROOFS. THESE Bridges and Roofs have now been fully tested In this vicinity, and it is universally conceded that they cannot be excelled. The Roots are wholly of Wrought Iron, or mixture of Wood and Iron; Sheeting above Iron.

whought from or mixture of Wood and from Sheeting always from.

The Bridges are wholly Wrought from except the floor, which is wood, like the floors of ordinary Bridges we are prepared to make these structures in any quantities, at prices about as follows:

Radirund Bridges, 50 feet span, 8,000 lbs, 317 50 per floot lines. Ratiroad Bridges, 50 feet span, 8,000 lbs, \$17 50 per foot lineal.

Common Read or Turnpike, 50 feet span, 2,600 lbs. \$5 75 per foot lineal.

Roots, all lron, 50 feet width of building, \$25 per 100 squa e feet, part wood and part iron, from \$12 to \$20 per square.

Lucrease of span of bridges er width of buildings makes an increase of price, but the increase in price is no more than the increase of wooden structures.

We can furnish iron of every size to work into Bridges and Roofs, and Railroads or other companies buying the right to use them and the iron of us, can make their own structures one third less than the above prices. Our structures weigh only from 1-4 to 1-10 that of wood; difference in freight in a long distance buys our work. In a few days we will have at our Factory, 497 West Third street, in this city, four different specimens of our Roof, where the public can inspect them to their satisfaction. We beg them to give us a call, as all our work is warranted, and we ask no pay on ordinary jobs until the work is done and approved, payments being secured on contracting. Gentlemen:—Having made a perticular examination of Goodrich's "History of All Nationa," I am tree to say, that I know of so work great or small, that certains half the amount of useful and entertaining matter for family reading. It is written in Mr. Goodrich's best-tyle. It is a library, a historical library of itsell; and it is worth, according to the usual cost of good reading, two or three times the money you ask for it. It is ne wouder that you have to keep a power press running constantly to supply the orders for these volumes; for the public have only to know their value to make them a universal want with all classes.

I am, gentlemen, most respectfully yours.

B. F. TEFFT. From Rev. Dr. Teft, late President of Gennesses Col-

Extract from a Latter from Ex-President Fillmore think it eminently deserving of the public patron-ige. It is necessirily brief; but it brings under re-new, with its admirable illustrations, the principal subspecially, it is invaluable.

bave been familiar with Mr. Goodrich's writings for many years, and have the pleasure of a personal acquamance with him; and think him admirably qualified for imparing instruction in a way that brings it within the reach of the common mind.
